WWF (World Wildlife Fund) is a global conservation organization that works to protect the planet's natural resources and the animals that depend on them. WWF's mission is to conserve the diversity of life on Earth and to ensure that the needs of future generations are met.

WWF is currently seeking applications for a Conservation Scientist. The role involves working on the ground in the field to monitor and manage natural resources, as well as conducting research and providing technical support to local communities. The successful candidate will have a degree in a related field and will be based in the UK.
